Dear Sir and Bro. Your favor of a late date is at hand and the contents duly noted. I have just returned from Montgomery and will say they have give up the idea of getting the State University. It is pretty well understood there, that they will not get it. So I think you will be alright. Please send me a Catalogue of your School, and your best terms for two Students¹ from the same family and oblige, Yours Very truly

Prof. B. T. Washington: Your letter received. I have called to see Rev. F. M. Peterson,² and impressed him with *one* thought if no more. He says he thinks the two schools being state schools would be too close together, should Marion school be established at Montgomery — says he had never thought of the nearness of the schools before. But he has, or will not come to any conclusion until he meets the committee, and everything concerning the school is brought out. He hopes to meet you there — says he think[s] you should be there, to reason with the committee.
